# ABDULMUIZZ  ABDULRAHAMAN

## OBJECTIVE

Highly motivated junior Web Developer with experience in building and maintaining web applications. Proficient in HTML, CSS, JavaScript. Seeking to join a dynamic team where I can utilize my skills to help drive the success of the organization.

## SKILLS & ABILITIES

HTML, CSS, Tailwind, JavaScript, Git, AJAX, ReactJs, NodeJs, Mongo DB, Firebase, Clerk.

## EXPERIENCE

**JUNIOR WEB DEVELOPER, KIPPA**

November 2022 – March 2023

Assisted in the development of speech to text web application with the intention to help blind people.

- Worked collaboratively with the team to develop new UI/UX using React and Tailwindcss, resulting in 20% increase in user engagement.
- Identified and resolved software issues using debugging techniques.
- Helped in implementing new features such as context API for better and enhanced web performance.

**JUNIOR FRONTEND DEVELOPER, ITIC**

April 2022 – August 2023

Frontend lead in the development of web applications, resulting in improved functionality and increased user satisfaction.

- Translated design and wireframes into high-quality code using HTML, CSS and JavaScript.
- Implemented new Features using Clerk resulting in 30% increase in user authentication.
- Learned and applied new technologies, including Git version control.
- Used Tailwindcss to create visually aesthetic and also improved website accessibility by implementing responsive designs.

## ACHIEVEMENTS

**BEST CLONE PROJECT**

Developed and Launched a Tesla, LinkedIn, Netflix and Nike Clone that won first place at a local junior Dev. Program.
